Bariatric Rehabilitation

This program is specially designed for people following bariatric surgery, or those that are seeking to avoid or prepare for upcoming surgery. The program will encourage patients to build knowledge about their condition and acquire the necessary skills and confidence to inspire and sustain long term positive lifestyle changes. With our team of specialist Allied Health professionals, we can offer you emotional support, self-management strategies and long term nutritional advice.

What is the program?

After a consultation with our Rehabiliation Specialist, an individualised program including strength and cardiovascular training will be made to help you regain independence and resume daily activities.

- 2 3 sessions per week
- 1.5 3 hours per session (depending on health fund)
- Refreshments provided
- Individual assessment and goal setting

You may have access to:

- Physiotherapy
- Occupational Therapy
- · Exercise Physiology
- · Social Work
- Dietetics
- Hydrotherapy

How do you access the program?

 Referral from your GP or specialist

Costs?

- Most costs are covered by your Private Health Hospital Cover as Day Rehabilitation (please contact us for more information as funds vary)
- Most costs covered with DVA Gold Card, Work Cover or Third Party Insurance
